SAVAGE AIRCRAFT DRAWS INTEREST AT SUN 'N FUN

April 16-23, 2007 was the annual Sun 'N Fun Fly-In, located in Lakeland, Florida.

Keith and Julie Hartlaub, the new US Dealers of Savage Aircraft, had a plane on display and a booth in the ultra light area.

Due to some logistic problems they were without an aircraft for the first day of the show. We would like to give a **BIG** thank you to Regis Roberts, who graciously allowed us to use his Savage Classic plane, N808RR for our static display.

We would also like to give a **BIG** thank you to John Mohr of Mohr Barnstorming who ferried the plane to and from the show for us. John likes to fly a Savage when he is not performing with his Stearman in air shows.

There was great interest in the Savage aircraft. Many comments on the craftsmanship of the aircraft. All were impressed that such a great plane could start at only \$60,000.00 delivered to Manitowoc, Wisconsin. Why Manitowoc?

We are dedicated to making purchaser's of Savage feel comfortable flying the aircraft before they take it to their home field. We will install the wings, and make final rigging connections. We will contact the DAR, get your plane issued it's airworthiness certificate,

even if you have many logged tail wheel hours.

We will have spare parts on hand in case any unforeseen problem may arise in the first hours of flight, and beyond if necessary. We are dedicated to helping you to keep your Savage flying safely!

John Mohr with Savage Classic

Glen Sullivan
Owner of Savage N808GS

and take care of the FAA registration paperwork.

We have two tail wheel instructors who can show you how to get the most out of your Savage flying. Most insurance companies will require at least a few hours to be checked out in your new plane,
