## FIRST EVER SAVAGE FLY IN!

wheels soon, so don't delay! All who go out flying come back and have one thing to say, "that is a lot of fun"!

**Interest High**

Thank you to all who keep contacting us via telephone or email. The response to Savage is great! Many comments on the craftsmanship of the aircraft. All are impressed that such a great plane could start at only \$70,000.00 delivered to Manitowoc, Wisconsin. Why Manitowoc?

**We** are dedicated to making the purchaser of a Savage feel comfortable flying the aircraft before they take it to their home field. We will install the wings, and make final rigging connections. We will contact the DAR, get your plane issued its airworthiness certificate, and take care of the FAA registration paperwork.

We have two tail wheel instructors who will get you familiar with Savage flying.

We have spare parts **on hand** in case any unforeseen problem may arise in the first hours of flight, and beyond if necessary. **We** are dedicated to quality control and helping you to keep your Savage flying safely!

September 27, 2008 was the first ever Savage fly-in held here in the U.S! Mark & Shelly Molle, owners of Savage Classic N511SM, invited all Savage owners to a fly in at the private strip near Dwight, IL where they live. 3 Savages were able to attend, making it look like a red Savage fly-in. Bud flew N164TT, and Keith and Julie, of Savage Aircraft Sales, brought N866LA., and Mark had N511SM out of the hangar. It was a beautiful fall day, and we all had a great time. Thank you Mark & Shelly for hosting the fly-in at your great grass strip!
