Savage on Amphib Floats

This year, winter is VERY serious for us here in the Midwest. So far we have had record amounts of snow-fall, and record low temperatures. Double digits below zero, BEFORE the wind chill! I don't know about you, but I am ready for summer! The long days, and warm temperatures, and the sound of floats splashing on the water. Flying with floats opens up a whole new dimension. You can now land on the ground or water! Double the fun! We have the amphib that is pictured above ready for you to take home! Czech aircraft works amphibious floats, doors on both sides for easy docking. Call today for more information! This aircraft is ready for delivery to your airport.

Savage to be featured in the February issue of Light Sport and Ultralight Flying magazine!

The Savage will be on the cover of February's Light Sport and Ultralight Flying magazine, along with a review by Dan Johnson.

Above are the links to the magazine's website, and Dan Johnson's website.

INTEREST HIGH

Thank you to all who keep contacting us via telephone or email. The response to Savage is great! Many comments on the craftsmanship of the aircraft. All are impressed that such a great plane could start at only \$70,000.00 delivered to Manitowoc, Wisconsin. Why Manitowoc?

We are dedicated to making purchaser's of Savage feel comfortable flying the aircraft before they take it to their home field. We will install the wings, and make final rigging connections. We will contact the DAR, get

your plane issued it's airworthiness certificate, and take care of the FAA registration paperwork.

We have two tail wheel instructors who can show you how to get the most out of your Savage flying. Most insurance companies will require at least a few hours to be checked out in your new plane, even if you have many logged tail wheel hours.

We will have spare parts on hand in case any unforeseen problem may arise in the first hours of flight, and beyond if necessary. We are dedicated to quality control and helping you to keep your Savage flying safely!

Manitowoc Airport in January!

Savage Cruiser right at home with a Piper J3 Cub in Northern Wisconsin

Don't forget, winter can be a great time to fly! Just add skis to the Savage and your ready for anything.
