SEE THE FALL COLORS FROM THE AIR IN YOUR SAVAGE!

Autumn in Wisconsin

Savage Aircraft are manufactured in the Czech Republic

We hate to admit it, but summer is over, and fall has begun. Fall is a great time to see the colors changing. Why not get a birds eye view? The Savage is a great platform for flying slow and sightseeing. Just open the door in flight, and get a great view of the colors changing. Fall brings cooler air, which in turn provides better performance from your aircraft. It's a great time to fly! We now have a Savage "Classic" in Manitowoc for those who want to see a Classic model.

VIDEO INTERVIEW

Dave Loveman of Ultra light news, did a video interview of John Mohr, of Mohr Barnstorming. The link to the video is below if you missed it during the week it was live on the Ultralight news website.

INTEREST HIGH

Thank you to all who keep contacting us via telephone or email. The response to Savage is great! Many comments on the craftsmanship of the aircraft. All are impressed that such a great plane could start at only \$60,000.00 delivered to Manitowoc, Wisconsin. Why Manitowoc?

We are dedicated to making purchaser's of Savage feel comfortable flying the aircraft before they take it to their home field. We will install the wings, and make final rigging connections. We will contact the DAR, get your plane issued it's airworthiness certificate, and take care of the FAA registration paperwork.

We have two tail wheel instructors who can show you how to get the most out of your Savage flying. Most insurance companies will require at least a few hours to be checked out in your new plane, even if you have many logged tail wheel hours.

We will have spare parts on hand in case any unforeseen problem may

arise in the first hours of flight, and beyond if necessary. We are dedicated to quality control and helping you to keep your Savage flying safely!

ANOTHER LSA MAINTENANCE REPAIR TECH FOR THE SAVAGE "TEAM"

Justin Glavin recently received his LSA Maintenance Repairman certificate, at the Rainbow Aviation course that was offered at the EAA headquarters in Oshkosh, making him the 2nd in Wisconsin, and both available to you through Savage Aircraft Sales, LLC. Congratulations to Justin!

Don't forget, winter can be a great time to fly! Just add skis to the Savage and your ready for anything.

SAVAGE A SYNONYM FOR FUN!
