OUR VISIT TO THE FINAL ASSEMBLY PLANT IN ITALY

October 20-27, Keith and I made a visit to the final assembly plant for Savage Aircraft that is located in Italy. We had made two visits to the manufacturing facility in the Czech Republic, and now wanted to see the final assembly operation.

Ultra light news website.

We have two tail wheel instructors who will get you familiar with Savage flying. Most insurance companies will require at least a few hours to be checked out in your new plane, even if you have logged many tail wheel hours in the past.

We have spare parts on hand in case any unforeseen problem may arise in the first hours of flight, and beyond if necessary. We are dedicated to quality control and helping you to keep your Savage flying safely!

INTEREST HIGH

Thank you to all who keep contacting us via telephone or email. The response to Savage is great! Many comments on the craftsmanship of the aircraft. All are impressed that such a great plane could start at only \$60,000.00 delivered to Manitowoc, Wisconsin. Why Manitowoc?

We are dedicated to making purchaser's of Savage feel comfortable flying the aircraft before they take it to their home field. We will install the wings, and make final rigging connections. We will contact the DAR, get your plane issued it's airworthiness certificate, and take care of the FAA registration paperwork.

PRICE INCREASE

We regret to inform you that as of January 1, 2008, the price of the basic Savage aircraft will rise to \$70,000. Any orders received by December 31, 2007 will receive the \$60,000 price. The ever increasing exchange rate of the Euro vs. US Dollar, coupled with higher transport prices, has forced the increase.

Place your order today and save!!!

Looking for the perfect Christmas Gift for the Savage Enthusiast on your list? How about a Savage Sun Catcher? **Only \$45**

During our visit, we were able to go for a ride in an amphibious Savage aircraft, landing on lake Garde. It was a beautiful fall day for a flight.

We were also able to fly in our aircraft that are due to be loaded into the shipping container any day now. Italy is beautiful from the air!

We were surprised one evening with a "picnic" among the Savage's. The employees set up a lovely dinner for us, among our two Savage Classic aircraft that are ready to ship to the U.S. Below are some photos from Italy.

VIDEO INTERVIEW

Dave Loveman of Ultra light news, did a video interview of John Mohr, of Mohr Barnstorming. The link to the video is included if you missed it during the week it was live on the
