CRUISER GAVE 80+ RIDES AT OSHKOSH!!

Pilot, Justin Glavin, gave over 80 demo rides in our Savage Cruiser during the week at EAA's Aventure. Each morning from 9:00 to noon, you would see N866LA taking off and landing at the ultra-light runway.

People interested in feeling how the Savage flies took rides, along with those who just wanted to see Oshkosh from above. Even several Make-A-Wish kids got to go for a Savage ride.

Justin received the "Broken Chicken" award from the Ultra-Light area volunteers. This is a traveling award that is given to a pilot that is easy to work with, and has a cooperative attitude. Congratulations to Justin. He did a great job flying in and out of the grass strip all week long.

Below is a photo of Justin receiving his award from Mark.

DID YOU FIND THE LSA MALL??

Below is a photo of our Savage on Amphib floats for those of you who did not happen to stum-

ble across the LSA mall this year. It was cleverly hidden about 2000 feet NE of the new control tower.

The amphib version sells for \$90,000 without avionics. It is

equipped with Czech Aircraft Works amphibious floats. The aircraft is located in Manitowoc, WI and is available for demo flights. Call (920)726-5260 if you want to come and see the aircraft. It's a great price for getting into the fun of float flying! Float training is available.

Thank you to all who stopped at our booth to check out the aircraft, sign up for a ride, or just stop to say hello. It is always great to see the familiar faces of current Savage owners, and the faces of those who come to see what the Savage is. We spoke to many interested parties

during the course of the week. Thank you to those who signed the guest book as well. It is always interesting to see where everyone comes from.

INTEREST HIGH

Thank you to all who keep contacting us via telephone or email. The response to Savage is great! Many comments on the craftsmanship of the aircraft. All are impressed that such a great plane could start at only \$70,000.00 delivered to Manitowoc, Wisconsin. Why Manitowoc?

We are dedicated to making the purchaser of a Savage feel comfortable flying the aircraft before they take it to their home field. We will install the wings, and make final rigging connections. We will contact the DAR, get your plane issued it's airworthiness certificate, and take care of the FAA registration paperwork.

We have two tail wheel instructors who will get you familiar with Savage flying.

We have spare parts **on hand** in case any unforeseen problem may arise in the first hours of flight, and beyond if necessary.

We are dedicated to quality control and helping you to keep your Savage flying **safely!**
